

December 2022 - 6.5.5 - EMS Arrangements

Season's Greeting from the Standards and Accreditation Committee!

As we head into the most wonderful time of the year, we hope that you will all have a chance to take a break and relax, connect and celebrate with friends and family! For those hosting programs over the holidays, we wish you all the best in those events.

As we wrap up 2022, I would like to take this opportunity to remind all members to check their Camp Listing on the ACA website (go to ACA Users > Dashboard, then select "My Listings" on the left hand side, and choose "Camp Listings", and select your camp). Please make sure that all information on your camp listing, and in particular, in the section outlined in RED is up to date.

The information in the red box is provided to Alberta EMS to meet the requirements of standard 6.5.5. Please note that the map should pinpoint the nearest municipally maintained road access to your site. This will provide EMS attendants assistance in finding your site in an emergency.

Camps should also include reference to this database with EMS information beside each phone and in each facility. These postings should tell guests to let the EMS

dispatcher know that they are calling from the camp, and that EMS has a database from the Alberta Camping Association with detailed location information for your site. You can find an example sign here:

Each month, the Standards and Accreditation Committee will research and review one standard and share clarification, examples, or other helpful information regarding that standard with the ACA membership. If you have a standard you would like to know more about, email standards@albertacamping.com to have it added to the list.

See you next month,
